1 Interpretation

In this Law –

“accommodation services” means the provision of accommodation, including meals and other services incidental to the provision of accommodation;

“long-term care services” means services, including any accommodation services, provided to a person who has attained the age of 18 years for the purpose of providing to that person permanent help with activities that are an essential part of normal daily living (such as bathing, dressing, grooming, and eating), the provision of such services being arranged, administered or supplied by the Minister (whether or not the person has been assessed as being in need of long-term care under the [Long-Term Care \(Jersey\) Law 2012](#));

“Minister” means the Minister for Health and Social Services;

“permanent” means continuing, or likely to continue, for the rest of a person’s life.

2 Power to charge for long-term care services

 - (b) provide for the remission or deferment of the whole or part of any charges in such circumstances as may be specified in the Order.

- (4) No person shall be charged for long-term care services provided to him or her unless the person has been assessed by or on behalf of the Minister as requiring such services.
- (5) An Order under this Article may make such transitional, consequential, incidental or supplementary provisions as appear to the Minister to be necessary or expedient for the purposes of the Order.

3 Recovery of charges as a civil debt
