- (12) If the pensionable allowance does not give rise to added years of pensionable service under Regulation 19, the method to which paragraph (10) of this

Regulation refers may involve *inter alia* the provision of an appropriate number of added years of pensionable service, which shall be deemed to be added years credited under Regulation 19 for the purposes of these Regulations.

- (13) The effective date of revocation of a declaration of a pensionable allowance shall be 6 months after the employer gives notice, or 3 months after the Committee has determined the method of dealing with members' past service entitlements (whichever is later).<sup>119</sup>

## **19 Added years in respect of a pensionable allowance<sup>120</sup>**

- (1) In the case of a member or former member who has received a pensionable allowance giving rise to added years of pensionable service under this Regulation, the number of the added years to be credited to the member shall be determined as follows –
- (a) if the employer has declared that the pensionable allowance received by the individual concerned before the effective date of the declaration shall count towards the computation of benefits, the number of added years of pensionable service in respect of the period before the effective date shall be determined by the employer, with the consent of the Chief Minister after that Committee has consulted the Committee and the Actuary;
  - (b) in respect of each calendar year during which the individual concerned is a member (excluding the calendar years before the effective date of the declaration and, if it has been revoked, excluding the calendar years after the effective date of revocation of the declaration), the number of added years of pensionable service shall be determined in accordance with the formula  $\frac{A \times B}{C}$ ,  
where –
    - (i) “A” is the number of days during the year when the individual was a member (excluding any days before the effective date of the declaration and, if it has been revoked, after the effective date of its revocation),
    - (ii) “B” is the total pensionable allowance giving rise to added years which was received by the member during the year (excluding the pensionable allowance received before the effective date of the declaration and, if it has been revoked, after the effective date of its revocation), and
    - (iii) “C” is the total salary received by the member during the year (excluding B and excluding any salary received before the effective date of the declaration and, if it has been revoked, after the effective date of its revocation), and
  - (c) at the time the member ceases to be a member of the scheme, the total number of added years of pensionable service to be credited to the individual shall be the sum of the added years determined under sub-paragraph (a) and the added years determined in respect of each calendar year under sub-paragraph (b),

but in the case of a member who was a part-time employee at any time during the year, C shall be subject to an adjustment, determined by the Actuary after

consulting the employer, having regard *inter alia* to the proportion of full-time hours worked by the member.

(2) Where –

- (a) pensionable service is to be enhanced under sub-paragraph (a) of the proviso to Regulation 7(2); and
- (b) the individual received, in the year immediately preceding the date on which the individual ceased to be a member of the scheme, a pensionable allowance giving rise to added years of pensionable service under this Regulation,

a further period of added years shall be calculated in accordance with the formula  $A \times B$ , where –

- (i) “A” is the number of added years of pensionable service credited under this Regulation in respect of the year immediately before the date the individual ceased to be a member of the scheme; and
- (ii) “B” is the relevant additional period in the Table in sub-paragraph (a) of the proviso to Regulation 7(2),

and, for the individual concerned, the period so calculated shall be added to the relevant additional period in that Table for the purpose of determining the enhancement of pensionable service.

(3) Where –

- (a) there is to be calculated under sub-paragraph (b) of the proviso to Regulation 7(2), Regulation 9(3) or Regulation 11(2) a pension or period of pensionable service which would have applied to an individual if the individual had continued in service until normal retiring age; and
- (b) the individual had received, in the year immediately preceding the date the individual ceased to be a member of the scheme, a pensionable allowance giving rise to added years of pensionable service under this Regulation,

it shall be assumed, for the purpose of the calculation, that the number of added years of pensionable service credited under this Regulation in respect of the year immediately preceding the date on which the individual ceased to be a member of the scheme would also have been credited in respect of each year after the individual ceased to be a member, up to and including the date of the individual’s normal retiring age, with the credit in respect of a part year counting proportionately.

- (4) A member whose pensionable allowance or salary has, to the satisfaction of the Committee, been reduced or discontinued because of ill-health or injury shall be deemed for the purpose of calculating added years under this Regulation to have received the allowance or salary which the member would otherwise have received (but for the reduction or discontinuance) as certified by the employer.

## **19A Award of compensatory added years<sup>121</sup>**

- (1) This Regulation has effect where an employer-initiated salary reduction is applied to a member’s salary.

- (2) The employer must, by way of compensation for the detriment caused to that member's pension as a result of the reduction, award the member with such added years as is determined by the Actuary having regard, amongst other things, to –
  - (a) the amount of service accrued by the member immediately before the salary reduction date; and
  - (b) the member's salary received before the salary reduction date, and on and after that date.

## **20 Bankruptcy and non-assignment of benefits**

If a member becomes bankrupt or does or attempts to do any act or thing not permitted by these Regulations whereby the member during the member's lifetime, or the member's personal representatives after the member's death, shall be divested of the member's interest or any part thereof in the benefits of the scheme, then all rights and benefits defined by these Regulations in respect of such member shall vest in the Committee and all amounts which would otherwise be due to the member shall be applied for the benefit of the member and the member's dependants:

Provided that no such payment by the Committee shall be made directly or indirectly to or for the benefit of any assignee.

## **21 Part-time employees**

In the case of a member who is or has at any time been a part-time employee, final pensionable salary, average salary and pensionable service shall be determined by the Actuary after consulting the employer having regard to, *inter alia*, the contributions paid by and in respect of the member, the salary paid to the member whilst a part-time employee and the proportion of full-time hours worked by the member, notwithstanding the other provisions of these Regulations and such other Regulations governing the scheme as are applicable to the member.<sup>122</sup>

## **22 Transitional provisions<sup>123</sup>**

- (2) In the case of a female who dies on or after 1st January 1993 but before the date of commencement of the Public Employees (Contributory Retirement Scheme) (New Members) (Amendment No. 5) (Jersey) Regulations 1995 (in this paragraph and in paragraph (3) referred to as "the amending Regulations"), if –

- (3) In the case of a member who dies before the commencement of the amending Regulations benefits shall be payable as set out in these Regulations as though the amendments to Regulation 9(8) and (9) and Regulation 10(5) by the amending Regulations had not been made.<sup>126</sup>
