2 Meaning of “controlled waters”

(1) In this Law, unless otherwise provided, “controlled waters” means –

(b) coastal waters, being waters that are within the area that extends landward, from the baselines from which the breadth of the territorial sea is measured, as far as the limit of the highest tide;
(c) inland waters, being the waters of lakes, marshlands, ponds, reservoirs, streams, surface water sewers, surface water drains and wetlands (whether in any such case they are natural or artificial, or above or below the ground), and not being coastal waters; and
(d) groundwater, being water that is below the surface of the ground, in the saturation zone and in direct contact with the ground or with the subsoil.7

(2) “Controlled waters” does not mean –
(a) lawful foul sewers;
(b) drains that drain into lawful foul sewers; or
(c) waters that are within mains or other pipes owned or used by the Jersey New Waterworks Company Limited, having been treated for the purposes of supply.

(3) “Controlled waters” does not mean any artificial inland waters in respect of which each of the following conditions is fulfilled, namely –
(a) that they are constructed so that water does not pass between them and controlled waters;
(b) that they are not owned by the Company; and

(4) This Law also applies to –
(a) the foreshore, being the land that lies between the limits of the highest and lowest tides; and
(b) the bottoms, beds and channels of controlled waters that are inland waters, whether or not they are for the time being dry,
as it applies to controlled waters.

4 Meaning of “pollution”
(1) In this Law, “pollution” includes the introduction directly or indirectly into controlled waters of any substance, or energy, where its introduction results or is likely to result in –
(a) a hazard to human health or water supplies;
(b) harm to any living resource or aquatic ecosystem;
(c) damage to any amenity; or
(d) interference with any legitimate use of controlled waters,
and whether or not its introduction is or would be the only contributing factor to that hazard, harm, damage or interference.9

(2) However, “pollution” does not include a discharge by the Minister or by a person acting on his or her behalf, for the purposes of the exercise of a regulatory power or the performing of a regulatory duty under this Law.9
