INVALIDITY PENSION

ARTICLE 16

- (1) Where a person has been insured under the legislation of both Parties, the insurance authority in the territory of the Party whose legislation was applicable at the time when incapacity for work followed by invalidity occurred shall determine, in accordance with its legislation, whether the person concerned satisfies the conditions for invalidity pension taking account, where appropriate, both for the determination of entitlement and for the calculation of the pension of any insurance period which that person has completed under the legislation of the other Party as if it were an insurance period completed under its legislation. For the purpose of determining entitlement to a Norwegian invalidity pension, insurance periods under Norwegian legislation must amount to at least one year.
- (2) For the purpose of determining entitlement to:
 - (a) supplementary pension under the legislation of Norway, no account shall be taken of any contribution period completed under the legislation of the United Kingdom;
 - (b) additional pension payable under the legislation of the United Kingdom, no account will be taken of any contribution period completed under the legislation of Norway.
- (3) Where a person would be entitled to receive for the same incapacity and for the same period invalidity pension under the legislation of both Parties, or invalidity pension under the legislation of one Party and sickness benefit under the legislation of the other Party, whether by virtue

of this Convention or otherwise, he shall be entitled to receive only the invalidity pension or sickness benefit, as the case may be, payable in accordance with the provisions of paragraph (1) of this Article, under the legislation of the Party in whose territory the incapacity began.

- (4) Where the amount of the invalidity pension payable under the legislation of the United Kingdom is less than the amount of benefit which would have been payable under the legislation of Norway but for the provisions of paragraph (3) of this Article, Norway shall also pay its benefit, but the amount of that benefit shall be limited to the amount by which the benefit it would have paid but for the provisions of paragraph (3) would have exceeded the amount of invalidity pension payable under the legislation of the United Kingdom.
- (5) With regard to the reduction of the pension point years required for the calculation of a full supplementary pension for persons born before 1937 the requirements concerning periods of residence in Norway laid down in Norwegian legislation shall be applied to persons other than Norwegian nationals. The supplementary pension calculated on the basis of such a reduction shall be payable only to persons present or resident in Norway or in the territory of the United Kingdom.
- (6) Where an invalidity pension is payable under the legislation of Norway in conformity with the provisions of this Article to a person who has become entitled to an old age pension under the legislation of the United Kingdom, the periods of insurance taken into account for the calculation of the old age pension of the United Kingdom shall not be taken into account for the calculation of the invalidity pension payable under the legislation of Norway. When a Norwegian old age pension becomes payable, it shall be calculated on the basis of the same periods of insurance as the invalidity pension which was payable under this provision.

SECTION 6

OLD AGE PENSION AND SURVIVORS' BENEFIT

ARTICLE 17

- (1) Where a person is entitled to a basic old age pension (other than the basic component of a Category B retirement pension payable to a married woman under the legislation of the United Kingdom by virtue of the contributions of her husband) under the legislation of one Party or under the legislation of any one part of the territory of a Party otherwise than by virtue of the provisions of this Convention, that pension shall be payable and the provisions of Article 18 of this Convention shall not apply under that legislation.
- (2) For the purpose of determining entitlement to:

- (a) supplementary pension under the legislation of Norway, no account shall be taken of any contribution period completed under the legislation of the United Kingdom;
- (b) additional pension payable under the legislation of the United Kingdom, no account shall be taken of any contribution period completed under the legislation of Norway;

and for the purpose of this Article and Article 18 of this Convention, supplementary pension under Norwegian legislation and additional pension under United Kingdom legislation shall be treated as separate benefits to which the provisions of Article 18 do not apply.

ARTICLE 18

- (1) Where a person is not entitled to an old age pension under the legislation of one Party or the legislation of any one part of the territory of a Party, but has completed an insurance period under the legislation of that Party of at least one year, any insurance period which he has completed under the legislation of the other Party shall be treated as if it were an insurance period completed under the legislation of the former Party for the purposes of determining his entitlement to an old age pension under the legislation of the former Party. The amount of the pension shall be calculated in accordance with paragraphs (2) to (7) of this Article.
- (2) In accordance with the provisions of Article 10 of this Convention, the insurance authority of the United Kingdom or of one part of the territory of the United Kingdom shall determine:
 - (a) the amount of theoretical pension which would be payable if all the insurance periods completed by that person under the legislation of both Parties had been completed under its own legislation;
 - (b) the proportion of such theoretical pension which bears the same relation to the whole as the total of the insurance periods completed by him under the legislation of that Party bears to the total of all the insurance periods which he has completed under the legislation of both Parties.

The proportionate amount thus calculated shall be the rate of pension actually payable to that person by the competent institution of the United Kingdom.

- (3) Subject to the provisions of paragraph (6) of this Article, for the purpose of calculating old age pension payable under the legislation of Norway, the insurance authority of Norway shall take account only of periods of insurance completed under the legislation of Norway and shall determine the amount of pension which bears the same relation to the full standard rate of pension as the periods of insurance taken into account bear to the periods of insurance which are required to achieve the full standard rate of pension under that legislation. The proportionate amount thus calculated shall be the rate of pension actually payable to that person under the legislation of Norway.
- (4) For the purposes of the calculation in paragraphs (2) and (3) of this Article, "pension" shall include any increase of benefit payable in respect of a dependent child.

-
- (5) For the purpose of applying the provisions of paragraph (2) of this Article:
- (a) the insurance authority of the United Kingdom shall take account only of insurance periods (completed under the legislation of either Party) which would be taken into account for the determination of pensions under the legislation of the United Kingdom if they were completed under that legislation, and, in relation to a woman, shall where appropriate take into account in accordance with that legislation insurance periods completed by her husband;
 - (b) no account shall be taken of any graduated contributions paid under the legislation of the United Kingdom before 6 April 1975 and the amount of any graduated benefit payable by virtue of such contributions shall be added to the amount of any pension payable in accordance with paragraph (2) of this Article under that legislation;
 - (c) no account shall be taken of any invalidity allowance payable under the legislation of the United Kingdom, but the amount of any invalidity allowance shall be added to the amount of any pension payable in accordance with paragraph (2) of this Article;
 - (d) no account shall be taken under the legislation of the United Kingdom of any increase of benefit payable under that legislation by virtue of deferred retirement, but any such increase of benefit payable under that legislation shall be added to any benefit payable under that legislation which has been calculated under paragraph (2) of this Article.
- (6) For the purpose of applying the provisions of this Article under the legislation of Norway the provisions of Article 16(5) of this Convention shall apply.
- (7) Where a compulsory insurance period completed under the legislation of Norway coincides with a voluntary insurance period completed under the legislation of the United Kingdom, for the purposes of applying paragraph (2) of this Article the United Kingdom shall take account only of the compulsory insurance period. However, the pension so calculated shall be increased by the amount by which the pension payable under the United Kingdom legislation would have been increased if all voluntary contributions paid under United Kingdom legislation had been taken into account.

ARTICLE 19

Where a person does not simultaneously satisfy the conditions for entitlement to an old age pension under the legislation of both Parties, his entitlement under the legislation of one Party shall be established as and when he satisfies the conditions laid down by the legislation of that Party. The provisions of Article 18 of this Convention shall be applied where there is otherwise no entitlement under the provisions of Article 17 of this Convention to an old age pension under the legislation of that Party and his entitlement shall be determined afresh when the conditions under the legislation of the other Party are satisfied.

ARTICLE 20

- (1) The provisions contained in Articles 17 to 19 of this Convention shall apply, with such modifications as the differing nature of the benefits shall require, to survivors' benefit.
- (2) Where a person is entitled to basic survivors' pension under Norwegian legislation, the rate of the pension shall be calculated on the basis of the actual period of insurance completed under Norwegian legislation and the future insurance period in the same proportion as the actual insurance period bears to the full Norwegian insurance period of forty years.
- (3) Where a person would be entitled to receive basic survivors' pension under the Norwegian legislation without recourse to this Convention, and that pension would be higher than the total of pensions payable under the legislation of both Parties by virtue of this Convention, that person shall be entitled to receive a supplement equal to the difference between the pension payable under Norwegian legislation and the total of the pensions payable under the legislation of both Parties by virtue of this Convention. Apart from changes caused by the regular revisions of the National Insurance basic amount, this supplement shall only be recalculated if a new decision concerning the pension is made under the legislation of either Party.
- (4) A survivors' pension payable under Norwegian legislation shall be converted into an old age pension when the person reaches the general retirement age. The amount of the old age pension shall at least correspond to the amount of the survivors' pension calculated in accordance with paragraphs (1) and (2) of this Article. However, to the extent that future insurance periods taken into account for calculating a survivors' pension under Norwegian legislation coincide with periods on the basis of which a pension has been calculated under the legislation of the United Kingdom, these coinciding periods shall not be taken into account for the calculation of an old age pension under Norwegian legislation.

SECTION 7**BENEFITS FOR INDUSTRIAL INJURIES AND DISEASES****ARTICLE 21**

- (1) Where the legislation of one Party applies to a person in accordance with any of the provisions of Articles 5 to 9 of this Convention he shall be treated under that legislation for the purpose of any claim for benefit in respect of an industrial accident or an industrial disease contracted during that employment, as if the accident had occurred or the disease had been contracted in the territory of that Party. Where benefit would be payable in respect of that claim if the person were in the territory of that Party, it shall be payable while he is in the territory of the other Party.
- (2) Where a person sustains an accident after he leaves the territory of one Party to go in the course of his employment to the territory of the other

Party but before he arrives in the latter territory, then, for the purpose of any claim for benefit in respect of that accident:

- (a) the accident shall be treated as if it occurred in the territory of the Party whose legislation applied to him at the time the accident occurred; and
 - (b) his absence from the territory of that Party shall be disregarded in determining whether his employment was as an employed person under that legislation.
- (3) For the purpose of applying paragraph (2) of this Article to persons covered by the provisions of Articles 5 to 9, “territory” includes the Continental Shelf Area or any ship or vessel of either Party.
- (4) Where because of a death resulting from an industrial accident or an industrial disease, a benefit would be payable under the legislation of one Party in respect of a child if that child were in the territory of that Party, that benefit shall be payable while the child is in the territory of the other Party.

ARTICLE 22

- (1) Where a person contracts an industrial disease, after having been subject to the legislation of both Parties in an occupation to which the disease may be attributed and he would be entitled to receive benefit in respect of that disease under the legislation of both Parties, whether by virtue of this Convention or otherwise, the benefit shall be payable only under the legislation of the Party in whose territory he was last employed in that occupation before the disease was diagnosed.
- (2) Where a person has suffered an aggravation of an industrial disease which was first contracted while he was subject to the legislation of one Party the competent institution of that Party shall take account of any aggravation which takes place in the territory of the other Party, provided that the aggravation cannot be attributed to employment in the territory of the latter Party in an occupation entailing risks of such disease.

ARTICLE 23

Where a person would otherwise have been entitled to any benefit payable in respect of an industrial injury or disease under the legislation of both Parties, that benefit shall be granted exclusively under the legislation of the territory in which the person was last employed.

SECTION 8

DEATH GRANT UNDER THE LEGISLATION OF JERSEY AND NORWAY

ARTICLE 24

For the purpose of any claim for death grant under the legislation in Article 2(1)(a)(iii) any insurance period completed under the legislation of the

other Party shall be treated as if it were an insurance period completed under the legislation in Article 2(1)(a)(iii).

ARTICLE 25

- (1) Subject to the provisions of Article 24 where a person dies in the territory of one Party, his death shall be treated, for the purpose of any claim for a death grant under the legislation of the other Party, as if it had occurred in the territory of the latter Party.
- (2) Where there would be entitlement to death grant under the legislation of both Parties, whether by virtue of this Convention or otherwise, in respect of a death,
 - (a) the grant shall be payable only under the legislation of the Party in whose territory the death occurs; or
 - (b) if the death does not occur in the territory of either Party, the grant shall be payable only under the legislation of the Party under whose legislation the person on whose insurance the right to the grant is determined was last insured before the death.

SECTION 9**ORPHAN'S BENEFIT****ARTICLE 26**

- (1) For the purpose of any claim for orphan's benefit under the legislation of one party any insurance period or period of presence completed under the legislation of or in the territory of the other Party, as the case may be, shall be treated as if it were respectively an insurance period or period of presence completed under the legislation of or in the territory of the former Party.
- (2) Where orphan's benefit would be payable to a person under the legislation of one Party if that person or the orphan for whom the benefit is claimed were resident in the territory of that Party, it shall be paid while that person, or the orphan, is resident in the territory of the other Party.
- (3) Where, but for the provisions of this paragraph, a person would be entitled to receive orphan's benefit under the legislation of both Parties in respect of the same orphan, whether by virtue of this Convention or otherwise, he shall be entitled to receive benefit only under the legislation of the Party in whose territory the orphan is resident.

SECTION 10**CHILD BENEFIT****ARTICLE 27**

- (1) Where a person is resident in the territory of one Party and the legislation of the other Party applies to him in accordance with any of the provisions of Articles 6(1) or 7(2) of this Convention, he or his spouse residing with him shall be treated for the purpose of any claim for child benefit under the legislation of the latter Party:
 - (a) as if he were present or resident, as the case may be, in the territory of the latter Party; and
 - (b) as if any child of his family or any child for whom he is responsible were present or resident, as the case may be, in the territory of the latter Party if the child is present or resident, as the case may be, in the territory of the former Party.
- (2) Where, but for the provisions of this paragraph, child benefit would be payable under the legislation of both Parties for the same period in respect of the same child, whether by virtue of this Convention or otherwise, child benefit shall be payable only under the legislation of the Party in whose territory the child is resident.

SECTION 11

ATTENDANCE BENEFIT

ARTICLE 28

For the purpose of any claim for attendance benefit under the legislation of one Party, any period of insurance, residence or presence, as the case may be, completed in the territory of the other Party shall be treated as if it were a period of insurance, residence or presence completed in the territory of the former Party, provided that the person concerned is ordinarily resident in the territory of the former Party.

RECOVERY OF ADVANCE PAYMENTS AND OVERPAYMENTS OF BENEFIT

ARTICLE 29

- (1) Where a competent institution of one Party has made a payment of any benefit to a person for any period or event in advance of the period or event to which it relates or has paid him any benefit for a period or event, whether by virtue of the provisions of this Convention or otherwise, and the insurance authority of the other Party afterwards decides that the person is entitled to benefit for that period or event under its legislation, the competent institution of the latter Party, at the request of the competent institution of the former Party, shall deduct from the benefit due for that period or event under its legislation any overpayment which results from the advance payment of benefit paid by the competent institution of the former Party and shall transmit this sum to the competent institution of the former Party.

- (2) Where a person has received social assistance under the legislation of one Party for a period for which that person subsequently becomes entitled to any benefit under the legislation of the other Party, the competent institution of the latter Party, at the request of and on behalf of the competent institution of the former Party, shall withhold from the benefit due for that period the amount by which the social assistance paid exceeded what would have been paid had the benefit under the legislation of the latter Party been paid before the amount of social assistance was determined, and shall transfer the amount withheld to the competent institution of the former party.

PART IV

MISCELLANEOUS PROVISIONS

ARTICLE 30

- (1) The competent authorities of the two Parties shall establish the administrative measures necessary for the application of this Convention.

The cost of such examination shall be met by the competent institution of the former Party.

ARTICLE 32

- (1) Where the legislation of one Party provides that any certificate or other document which is submitted under the legislation of that Party shall be

exempt, wholly or partly, from any taxes, legal dues, consular fees or administrative charges, that exemption shall apply to any certificate or other document which is submitted under the legislation of the other Party or under the provisions of this Convention.

Where any certificate, document or written statement of any kind is submitted to a competent authority of one Party, it shall not be rejected on the ground that it is written in the official language of the other Party.

ARTICLE 34

- (1) Any claim, notice or appeal which should, for the purposes of the legislation of one Party, have been submitted within a prescribed period to the insurance authority or the competent authority of that Party, shall be treated as if it had been submitted to that insurance authority or competent authority if it is submitted within the same period to an insurance authority or competent authority of the other Party.
- (2) Any claim for benefit submitted under the legislation of one Party shall be deemed to be a claim for the corresponding benefit under the legislation of the other Party in so far as this corresponding benefit is payable in accordance with the provisions of this Convention.

 - (a) each Party shall appoint an arbitrator within one month from receipt of the demand for arbitration. The two arbitrators shall jointly appoint a third arbitrator, who shall not be a national of either Party, within two months from the date on which the Party

which was the last to appoint its arbitrator has notified the other Party of the appointment;

- (b) if within the prescribed period either Party should fail to appoint an arbitrator, the other Party may request the President of the International Court of Justice or, in the event of his having the nationality of one of the Parties, the Vice-President or next senior judge of that Court not having the nationality of either Party, to make the appointment. A similar procedure shall be adopted at the request of either Party if the two arbitrators cannot agree on the appointment of the third arbitrator.
